EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

The following (substantially copied from the PCT Application PCT/US98/23937) was

inserted to provide the application with the necessary Abstract, to put the case in better condition

for allowance:

09/554135

ABSTRACT

B₁ A projection lens for use with LCD panels is provided. The lens has a first lens unit which includes a strong negative lens element having an aspherical surface which provides distortion correction, and a second lens unit which includes a strong positive power having a first lens subunit separated by an airspace from a weaker power second lens subunit. The second lens subunit can include a negative lens element, followed by a positive lens element, followed by a plastic lens element having an aspherical surface. The projection lens has a field of view of at least 35° so that the overall projection lens system has a compact size.

Information Disclosure Statement

3. The Examiner has considered all of the references listed on the PTO-1449, as well as the now abandoned U.S. patent application, serial number 09/015,025.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of a projection lens and projection lens system having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including seven conditional statements which must be met and wherein each unit and subunit consists of or has specific features. Therefore, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to E.A. Lester whose telephone number is (703) 308-4943. The examiner can
